DOLLAR RATE FOR LEMONS UPHELD

Commerce Court Sustains Citrus Fruit Freight Rate Approved by Commission

LONG LITIGATION OF TWO COMMERCE BODIES ENDS

Santa Fe Railroad Company Was Appellant in Famous Rates Case

WASHINGTON, Feb. 26.—The commerce court today sustained the dollar freight rate from the west to the east on shipments of lemons and other citrus fruits.

The decision dismissed the Santa Fe's appeal from the Interstate Commerce Commission order that held the dollar rate was sufficient. The dollar rate must stand unless the railroads show it is confiscatory.

The judgment of the Interstate Commerce Commission, which was appealed from by the Santa Fe Railway, is affirmed.

This ends the long litigation wherein the Commerce Court and the Interstate Commerce Commission had sharp differences of opinion.

In conclusion the Commerce Court said: "Even if it had been clearly proved that the dollar rate for lemons did not yield its full proportion of the entire operating expenses of the road no claim of confiscation in the sense of constitutional right could be based thereon."

MRS. PANKHURST IS HELD FOR TRIAL

Prosecutor Bodkin Said Burning of Lloyd-George's House Was Instigated by Her

EPSCOM, England, Feb. 26.—Mrs. Pankhurst was today held for trial at the Guildford assizes on the charge of instigating the dynamiting of Lloyd-George's summer home. The court was packed with suffragettes but there was no demonstration.

Prosecutor Bodkin at the arraignment said: "The crime was admittedly carried out at the instigation of this woman. She says so. She has instigated a general warfare against property to overthrow the government. Mrs. Pankhurst reserved her defense until her trial shall come off."

CALIFORNIAN SAYS HE KILLED UNCLE IN SELF DEFENSE

SALEM, Mass., Feb. 26.—William A. Dorr of Stockton, Cal., killed his uncle, George E. Marsh, the millionaire soap manufacturer, during a fight in Marsh's automobile near Lynn here. He declared Marsh was holding Dorr down and threatening his life when Dorr shot. Dorr will testify in his own behalf.

SENATOR BOURNE IS MUM

Refuses to Talk of Rumor That His Wife Plans to Sue Him for Divorce

WASHINGTON, Feb. 26.—Senator Bourne flatly refused today to discuss the rumor that his wife, who is reported to have left Washington for Portland, will sue for divorce. "A man's private affairs are not interesting to the public," the Senator said. "I must decline to be interviewed."

The Senator admitted that he does not know his wife's whereabouts.

Mayberry Ranch of 377 Acres Brings Price of \$85,000

Through the agency of Cain & Drake, the Mayberry ranch of 377 acres has been sold to Messrs. E. A. Farnsworth and Leo Borheard, who reside near Huntington Beach, the consideration being about \$85,000.

The property is inside the city limits at the northwest corner. About a mile of the land fronts on North Bristol street, and most of it lies north of Seventeenth street. In fact all of it does with the exception of about 40 rods.

The land is especially adapted for beans, beets and alfalfa, and other products. It has been used for general farming purposes at intervals. It is not known what the new owners plan to do with the property, but it is considered probable that they will not permit it to remain idle.

This is one of the biggest realty deals of the season.

ANOTHER GUESS AS TO MEMBERS OF WILSON'S CABINET

WASHINGTON, Feb. 26.—Coming direct from Trenton in such a way that Democratic congressmen closely identified with the incoming administration apparently do not question its reliability, the names of five probable cabinet members were reported here today. Although there is no official verification, it is said the following appointments have been decided upon and acceptances received: Secretary of State—W. J. Bryan. Secretary of the Treasury—William McAdoo of New York.

Secretary of the Navy—Josephus Daniels of North Carolina. Attorney General—Louis D. Brandeis of Massachusetts.

Postmaster General—Albert Burleson of Texas. Representative Palmer of Pennsylvania, and Mayor Newton Baker of Cleveland, were slated for positions, but refused, according to report, Palmer declining the war portfolio because he is a Quaker, and Baker declining because he prefers to carry out reforms started in Cleveland.

"THE LITTLE WHITE DOVE" WANTS TO BE OFFICIALLY RECORDED IN ORANGE CO.

"The Little White Dove" arrived at the county recorder's office this morning in the form of an awe-inspiring "declaration" issued in connection with the Zion City religionists who were taken into the fold of the late "Prophet" Dowle. The latter has been succeeded by one Olivia, who is the head of the "Kingdom of Heaven."

When Recorder Peters opened his mail he was puzzled over the receipt of "The Little White Dove." It certainly wasn't a bird, or an animal; and investigation proved that it was nothing more or less than a publication of some sort. There was enclosed a brief note signed by one Henry L. Burnett of Chicago, requesting that the enclosed instrument be made a matter of record, and asking that bill

SUPERVISORS ARE READY TO O.K. ROAD PLAN

Informal Vote of Four to One In Favor Coast Boulevard Improvement

ANAHEIM DELEGATION VIGOROUSLY OPPOSED

Prominent Men Interested on Other Side Plead For an Early Start

Although it was not a regular meeting of the board of county supervisors that was held yesterday afternoon at the court house, all the members had gathered for the purpose of considering the petition for the changing of the road district line between the Fullerton and La Habra districts, as petitioned for by property owners in that section, as shown in the Register last evening. After all the reasons in favor of the change had been heard, and there were no objections to speak of, the supervisors agreed that the change should forthwith be made, so that there may not be any possible complications when the county assessors get busy next Monday.

With this matter out of the way, the differences over the proposed coast boulevard were once more aired, and aired vigorously. This time the main objectionists were from Anaheim, being A. A. Mills, V. U. Vincent, and Henry Adams. On the other side of the argument were Phil A. Stanton, president of the Bay City Improvement Company; Lew H. Wallace of the Newport Beach bank; J. A. Armitage of Sunset Beach, and W. T. Newland of Huntington Beach.

Arguments and contradictory statements were handed about at a lively and interesting rate, the Anaheim men protesting against the use of the county funds for the proposed purpose, and the advocates showing that the coast sections are in all fairness entitled to this important improvement. An informal vote on the proposition was taken and four supervisors went on record in favor, and one in opposition, the latter vote being cast by Supervisor Schumacher of the fourth supervisorial district, which comprises the northern end of the county, where the principal opposition to the coast road improvement comes from.

The supervisors passed the demand for \$2,000, the first payment on the five cottages that are to be erected at the county poor farm.

OIL MAGNATES OUT OF TEXAS LAW TOILS

District Attorney Told by U. S. Atty. General Wickersham to Dismiss Indictments

DALLAS, Tex., Feb. 25.—Under direct orders from Attorney General Wickersham, Federal District Attorney Hall yesterday dismissed the federal indictments returned against President Archibald, and three other Standard Oil magnates for alleged violations of the Sherman anti-trust law. Asked to explain the action Atwill said: "I have no comment to make."

Not Here
The day has passed when it was the proper thing to tell a girl you love every hair on her head. That doesn't show any more personal admiration than if you adored her complexion.

The instrument referred to was a two-page of legal sized paper, which was covered with a "declaration" in which biblical patriarchs from Melchizedek to Isaiah were freely referred to. The introduction read: "Be it known unto Judah and unto Israel and to all to whom these words shall come;" and then it forthwith proceeded to announce that the time isn't so subse- quently distant as it may seem before the second coming of Jehovah, and the information is vouchsafed that "The Little White Dove" is preparing the way.

Recorder Peters doesn't see how he can record the instrument in its present form.

BORDER TROUBLE WORRIES WAR OFFICIALS

Will Replace Troops on Texas Border Lately Removed to Galveston

EMILIO MADERO ALIVE; HEADS NEW REVOLUTION

3000 Troops Behind Him; Fighting at Monterey; Sonora Troops Swear By Huerta

WASHINGTON, Feb. 26.—Alarmed at renewed reports of disturbances near the border, Washington officials have declared their intention to immediately replace the troops on the Texas border who were recently removed to Galveston. Secretary of War Stimson assured Senators Sheppard and Culberson of Texas that troops would be supplied and all precautions would be taken to prevent border raids.

EMILIO MADERO ALIVE AND HEADS NEW REVOLUTION
EAGLE PASS, Tex., Feb. 26.—Definite information that Emilio Madero, brother of the slain Francisco I. Madero, who was reported shot and killed north of Monterey, is alive was received here today. Emilio is reported to be with his brother Raoul with three thousand troops near Torreon. Many rebels are flocking to his standard. Fierce fighting was reported today at Monterey.

Emilio and his brother Raoul began a counter revolution at San Pedro, Coahuila, a few days ago, expecting to unite the rebels about Saltillo and those of the Loredo district. It is believed they have accomplished this. Emilio formerly held the rank of colonel of rurales in Durango, and is exceptionally able and popular. With the forces they can muster, Emilio and Raoul will combat the forces that have seized the Mexican government.

Yesterday's Death Rumors
The rumor of Emilio's death, widely circulated, named the place of his killing as between Villadama and Bastamento, where he was said to have been shot by federal forces on the charge of being in open rebellion against the government. There was also an unconfirmed rumor that Alberto Madero, an uncle of the late president, was also killed.

No confirmation of the reports that Abraham Gonzales, governor of Chihuahua, was executed last night at Chihuahua, has been received.

MADERISTA TROOPS IN SONORA TAKE OATH OF ALLEGIANCE TO HUERTA GOVERNMENT

EL PASO, Feb. 26.—All the Maderista troops in Sonora today took an oath of allegiance to the Huerta government. It is announced here that all the troops of the garrisons of Cananea, Agua Prieta, Hermosillo and Guaymas have allied themselves with the government. Three thousand Yaquis in Sonora refused to take the oath of allegiance. It is reported that no present attempt will be made to pacify them.

A Mexico City dispatch tends to confirm the reports that President Huerta proposes to recruit an army of 150,000 men to maintain his dictatorship.

NEW HOTEL SITE ACQUIRED FOR \$26,000

The property owned by the D. H. Thomas and R. F. Chilton estates at the northwest corner of Main and Sixth streets, with 250 feet frontage on Main street, has been secured for a hotel site.

The option was secured today by S. J. Jackman, who is forming a syndicate. The price is \$26,000. It is admitted that the property will be held for hotel purposes, and it is reported that parties are already interested in the proposed new hotel.

The Thomas property is now in the name of Shirley Thomas. The sale is regarded as an important one, and the forerunner of renewed activities in both building and realty the coming spring and summer.

The Capitol Ready For Inauguration Day Ceremonies

WILSON WILL TAKE OATH OF OFFICE ON EAST PORTICO OF THE NATIONAL CAPITOL

WASHINGTON, Feb. 26.—The resignation of Woodrow Wilson yesterday from the governorship of New Jersey, in which office he made a national reputation, turns thought toward the new environment in which he will soon be placed.

The national capitol at Washington, in which as president, Mr. Wilson will be vitally concerned for the next four years, is one of the most beautiful buildings in the world. To its august portals Mr. Wilson will be driven on the forenoon of March 4th and will be taken first to the room reserved in the capitol in which he will sign the bills that may be favored by him. Later after witnessing the taking of the oath in the senate chamber by his vice president, Thomas R. Marshall, Mr. Wilson will go to the east portico of the capitol where on a temporary stand erected for the purpose, he will be sworn in as president of the United States.

MRS. RICHART WROTE 'BLACKHAND' LETTERS

Woman Confesses to Sheriff and Postal Authorities She Sent Threatening Letters to Herself

Quiet but persistent investigation by Sheriff Rudbeck, with the cooperation of the postal authorities and the district attorney's office, resulted yesterday afternoon in Mrs. E. C. Richart, who with her husband, resides on the San Joaquin ranch, making confession that she had been sending "blackhand" letters to herself. Only a few days ago Mrs. Richart caused considerable public concern by declaring that she had been made the victim of a vicious assault at the hands of two masked men, who had beaten her and either intended to kidnap or hang her. Whether this alleged assault was merely the result of her imagination, or had an actual basis, is not positively known, although Mrs. Richart insists that it was true as she related. It is no secret that the authorities are not disposed to accept her story.

Upon formal invitation, Mrs. Richart and her husband yesterday afternoon visited the offices of Sheriff Rudbeck in the county courthouse, and there met Assistant District Attorney A. E. Koepsel, Postmaster Law, and Colonel Wilson, a United States postal inspector, who makes his headquarters in Los Angeles. For about two hours the case in its varying features was freely discussed. It had been noticed by the officials that a number of words in the letters that Mrs. Richart claimed to have received, were misspelled, and so Colonel Wilson dictated a form of affidavit, which, as explained to the woman, she would have to write and sign for the use of the authorities. Mrs. Richart did this willingly and when she had finished it was seen that she had misspelled every one of the words that had been misspelled in the "blackhand" letters.

Accused of being the real author of the letters, Mrs. Richart at first made strenuous denial, but when the similarity of the handwriting and the misspelled words were pointed out to her, she finally admitted that she was the author. Asked why she had written such letters she replied that she did not know unless it was that she had been worrying too much over her music. She gives instructions on the piano. She soon grew very angry when she realized that her conduct had been traced home to her, and that she had made admission, so that when she left the sheriff's office she was in high dudgeon. Her husband appeared to be very much perturbed but he consoled his irate wife with words of comfort and good cheer.

Before departing Mrs. Richart signed the following confession:
The Woman's Confession
Santa Ana, February 25, 1913.—Inspector Wilson: I wrote and mailed the letters which you have shown me and I do not know why I wrote them only on account of music. That is the only reason of which I know why I wrote the letters. (Signed) Mrs. E. C. Richart.

Subscribed and sworn to before me this 25th day of February, 1913. A. E. Koepsel, assistant district attorney.

"This is the first case that I ever had where we ran down the person we were after and found he or she was the complaining witness."

Mrs. Richart's Complaint
Mrs. Richart's complaint is peculiarly interesting at this time in view of her confession. It is in full as follows:

In the Justice's Court of Santa Ana Township, County of Orange, State of California.
The People of the State of California, plaintiff, vs. John Doe and Mary Green, defendants. Complaint criminal.
Personally appeared before me this 4th day of February, 1913, E. C. Richart, who being first duly sworn, deposes and says: That on or about the 1st day of February, 1913, at and within the County of Orange, State of California, the crime of felony, to-wit: extortion, was committed by John Doe and Mary Green, who at the time and place last aforesaid, did then and there, wilfully and unlawfully, feloniously and with intent to extort money and property from E. C. Richart, write and send to said E. C. Richart a certain letter and writing, which said letter and writing did express and imply and was adapted to imply a threat to do an unlawful injury to and upon the person of said E. C. Richart; which said letter and writing was then and there in words and figures as follows, to-wit:

Mrs. Richart you have not heeded the warning you have had why don't you (drawing of a coffin) have given you plenty of time to quit those lessons you have taken from revills and if you don't stop look at this (drawing of a rope) will just give you from first of Feb. till the 21st of Feb. to do this you can quit these lessons or leave 100 dollars in an envelope at the corner of macklay and chestnut ave between the first two trees at the corner pine trees with three

TAFT OFFERS PLANS FOR BUDGET

Suggests Retirement of Greenbacks and the Repeal of Sinking Fund Law

TAKES A SWAT AT CIVIL SERVICE EXPENDITURES

Says Millions Can Be Saved; Advises Putting P. M.'s to Work; Abolish Assistants

WASHINGTON, Feb. 26.—In what is probably his final message to congress, President Taft today detailed in a 25,000-word communication his plans for a national budget. He declared the government faces a treasury deficit of \$25,000,000 next year, and presented a detailed co-ordinate scheme outlining a definite fiscal policy instead of what he terms a "government without plan or program." He suggests the retirement of greenbacks, the repeal of the sinking fund law, a centralized supervision of receipts, expenditures and a score of economies.

After declaring that the present budget system is ineffective, the president asserts that \$6,500,000 can be saved annually by reorganization of the civil service and the abolishment of sinecures. He suggests the classification of first and second-class postmasters, paying them twenty per cent more than the salaries of their assistants, making the postmasters do the necessary work, and abolishing the office of assistant postmaster. He advocates the elimination of waste in public printing, the consolidation of all government mints and assay offices in one central plant, the payment of the public debt in twenty years by a new government bond issue tentatively advanced, and the purchase of public buildings to save rent.

"Ours is the only great government doing business without a budget," the president says. "The executive officers under the president are responsible for money transactions aggregating more than five billions yearly or sixteen millions each working day. Not only have we been without adequate information but this great institution with its multiplied activities may be said to be without plan or program. Although spending annually four hundred millions for military purposes we have never had a consistent, comprehensive military policy. Nor have we as a nation any plan for the development of many services erected to provide for economic and social welfare."

Declaring the national sinking fund has a mere legal existence, the president said the law should be superseded by one with enforceable provisions. "We should not go ahead blindly, passing and signing one appropriation bill after another without knowing where the money is coming from." The message continues: "The confusion and unbusinesslike conditions that have prevented thorough reform and the simplifying of financial and operating systems, have been the result of a century of neglect."

Declaring the government should remain nearly as debt free as possible, he says: "Our public debt is a part of an admittedly vicious system of banking currency. Every objection to the retirement of the greenback is without force. Outstanding obligations are a constant menace to government and private credit."

ATTEMPTED JAIL
DESTRUCTION
CHARGED

Edward Holt of Anaheim Now
Before Jury of His Peers
in Superior Court

Destruction of the jail in Anaheim, or at least an attempt to thus make that institution a memory of the past in that community, is the crime for which Edward Holt faced a jury today in the superior court of Orange county before Judge West. The court appointed J. Howard Bell to defend the prisoner, who sat moodily in the court room and manifested no great interest in the proceedings.

The empanelling of a jury did not require much time, the following twelve good and true men being chosen for the service:

O. A. Steward, Merritt Crandall, W. S. Peek, John Otto, L. W. Evans, James Forbes, Jacob Mullen, Henry Belt, George R. Reyburn, I. N. Barnett, Warren M. Gray and M. T. Summers.

Attorney Bell took a keen interest in the case and his cross-examination of witnesses against his client was vigorous and searching. Assistant

District Attorney Koepsel is conducting the prosecution.

AN EXCELLENT SHOW IS GIVEN AT THE TEMPLE

Dr. Roberts, manager of the Temple Theater, may well praise the bill he had on last night. No one could be present and do otherwise. In "The Two Portraits" is told all the story as plainly as told by Rex Beach in his novel. The splendid musical feature brought an encore, so well pleased was the audience. The closing reel closed the show with laughing. Altogether it is an unusually good show.

DELICIOUS "SYRUP OF FIGS" REMOVES ALL
SOUR BILE, GAS, HEADACHE, CONSTIPATION

Takes the scum from the tongue; sweetens a sour, gassy, bilious stomach; cleanses your liver and 30 feet of bowels without griping or nausea

All those days when you feel miserable, headachy, bilious and dull are due to torpid liver and sluggish bowels. The days when your stomach is sour and full of gas, when you have indigestion; the nights when your nerves twitch and you are restless and can't sleep could be avoided with a teaspoonful of delicious Syrup of Figs. Isn't it foolish to be distressed when there is such a pleasant way to overcome it?

Give your inactive liver and ten yards of waste-clogged bowels a thorough cleansing this time. Put an end to constipation.

Take a teaspoonful of Syrup of Figs tonight, sure, and just see for yourself by morning, how gently but thoroughly all the sour bile, undigested

fermenting food and clogged up waste matter is moved on and out of your system—no nausea—no griping—no weakness.

You simply can't have your liver inactive and your thirty feet of bowels constipated with sour, decaying waste matter and feel well. The need of a laxative is a natural need, but with delicious Syrup of Figs you are not drugging yourself. Being composed entirely of luscious figs, senna and aromatics it can not injure.

Ask your druggist for the full name, "Syrup of Figs and Elixir of Senna." Refuse, with scorn, any of the so-called Fig Syrup imitations. They are meant to deceive you. Look on the label. The genuine, old reliable, bears the name, California Fig Syrup Company.—Advertisement.

No Business Before Justice of

Prospects Bright

Peace kept Justice of the Peace Cox most of the time today. Not a case was on the docket to disturb the equanimity of the court, and the judge took occasion to brush up on law points and delve into some old and musty records that he considered worth while keeping fresh in his memory.

Tomorrow he will hear the case of R. C. McMillan against Boyd Ellis, who the former prays for judgment to the amount of \$125 for damages inflicted upon his motorcycle, and for which he blames Ellis, who was in the auto that participated in the collision in which the motor was damaged.

On March 3 the case of the people against the Messrs. Griest, senior and junior, of Newport Beach, is set for trial. The prosecuting witness is W. T. O'Howell, who claims to have been assaulted while in the discharge of his duties as keeper of property owned by the Griests that had been attached by court order.

On the day following March 4, two Mexicans will be arraigned for the alleged theft of a bicycle frame, and in the afternoon, Sam Nettles, the Fullerton negro charged with attempting to poison his stepdaughter, is scheduled for hearing. March 5 is the date set for the Luther case, in which the defendant is charged with being the father of the illegitimate child of his 13-year-old stepdaughter.

Friday next Jack Handley, an alleged vagrant, is to have a jury trial which he demanded.

WANT ANDERSON
TO WITHDRAW BILL

W. C. T. U. Women Pass Resolution for "Hands Off" on Equal Pay to Teachers' Law

That the W. C. T. U. women of this city are deeply and intelligently interested in the laws governing this state, particularly those relating to women and children, was demonstrated yesterday at the regular meeting of the White Ribboners held at the home of Mrs. E. H. Prince, 702 Hickey street.

Foremost among the several important topics discussed at this meeting was the proposed repeal of the law which says that female teachers in the "public schools of this state shall in all cases receive the same compensation as is allowed male teachers for like services when holding the same grade certificates." a statute that has been in existence in California since 1874. In common with all women who are conversant with this measure, the women of the Santa Ana W. C. T. U. object to the repeal of so just a law. Accordingly a resolution was passed yesterday asking Senator J. H. Anderson of this city to withdraw bill No. 828 which he has introduced into the legislature and which aims to make null and void this law of equal pay for men and women teachers. The resolution that was passed by the W. C. T. U. yesterday is given below:

Whereas, a certain bill has been introduced into the legislature of California known as Senate Bill No. 828 which aims to make null and void a law which has been on the statute books for thirty-nine years and which, during all these years has fairly well secured to the women of the state the same compensation as is allowed to male teachers for like services; and whereas, the repealing of this law will undoubtedly work an injustice to women teachers;

Be it resolved that the proposer of Senate Bill No. 828 be and hereby is requested to withdraw this bill.

WANT LAWS ON COMMUNITY
PROPERTY TO BE AMENDED

The W. C. T. U. also wants an amendment to the property laws relating to community property. Mrs. W. B. Tedford and Mrs. P. H. McElree were appointed as a committee to meet with the Civics Club committee to look over laws and to also form an amendment to the community property law.

"CIVICS" AND "MOVING
PICTURES" DISCUSSED

Besides the matter of laws, the women who had braved the inclement weather yesterday talked of other important topics. Prior to the discussion of "Civics" and "Moving Pictures," the two announced topics, there was a discussion in regard to quarantine for diseases of school children. It was the general opinion that too much carelessness was manifested in regard to children ill with contagious diseases, and that such carelessness was the main cause for those diseases spreading more rapidly and widely than they otherwise would. It was also the consensus of opinion that stricter quarantine should be enforced.

Mrs. J. A. Wilkes read a paper on "Moving Pictures" in which the moving pictures were portrayed as a great education factor as they were becoming popular in bringing historical lessons before school children. It was predicted that within the next ten years the moving picture will be a feature of school work. A very lively and animated discussion followed. The moving picture was not condemned, but the class of pictures usually shown were objected to. While there are some good pictures

shown, on the same film will be pictures of a low character. If only good, instructive pictures were shown the bad that comes from the lower class pictures would be overcome. Legislation was thought to be the only way the moving picture proposition can be regulated.

On the subject of how to procure the best meats and vegetables, Mrs. Von Allmen read an article, "Woman On Her Job."

Mrs. A. J. Lawton, president of the Civics Club, made a good talk on civic questions. Mrs. Lawton stated that the whole work of the W. C. T. U. is a high class of civics, for the W. C. T. U. is working for the betterment of man which is the highest work. If all citizens would pull together much more effective work could be done and if all would take the same pride in the city as in their own property the work of cleaning up and making the city beautiful would be more easily accomplished. Mrs. Lawton spoke on a number of bills that would come before the legislature. She also announced that Mrs. Chas. Farwell Edson of Los Angeles would be present at the Civics Club on next Saturday when a number of these bills will be explained. A cordial invitation to attend the civics meeting was given by Mrs. Lawton.

Routine Business
The program for the afternoon was in charge of Mrs. W. B. Tedford, and was opened with a scripture reading by Mrs. P. H. McElree and prayer by Mrs. Sturgeon.

Among matters already achieved it was announced that blotters which are calculated to discourage the use of cigarettes had been distributed by the Union in the city schools, one blotter having been given to each child of the grades from the third to the eighth.

It was also announced that there is still a call for rags from the teachers of the Spanish children at Central school to be used for making rugs. Any kind of rags suitable for making woven or braided rugs will be thankfully received. Old stockings are also asked for.

Election of Officers Soon

The president again asked that all superintendents of departments have their reports ready to be read at the next meeting, which will be held at the home of Mrs. John McFadden, 906 North Main street, on March 11. The election of new officers will be held at this meeting.

J. PIERPONT MORGAN

The news of the serious illness from which the head of American finance is suffering in Egypt is causing the stock market to undergo a blue agony like the chilly shivers it had during the year of E. H. Harriman's decline.

Mr. Morgan's relation to industrial America is even more intimate than Harriman's ever was. No great railroad deal could be put through today without the sanction of the House of Morgan, and it has likewise been the heart and soul of the great trust promotion of the past twenty years.

Mr. Morgan is no mere money getter. He is equally a spender, with a million for a picture, a church, or a business friend, as you would toss a biscuit to a dog.

Mr. Morgan's strength has been combination and co-operation, his weakness, water. A clever writer says that give him a dime and send him to the hydrant, and he will return you a ten dollar bill. Speaker Reed's witicism that "A corporation is a body of stock entirely surrounded by water" might well have been inspired by observation of the ways of the Morgans.

At the same time, it may be said that in creating all of the so-called watered stock, he broke no law of the land. Though sentiment is crystallizing against this method of financing, it is still approved in some of the newer sections of the country, as the only way to develop idle resources. Mr. Morgan may have fenced and capitalized blue sky, but even blue sky produces golden wheat.

Mr. Morgan has never been a railroad wrecker. He took palmed and anaemic properties, put the red blood of system and efficiency into their veins, and drew his toll for the service. The American people have come to fear the dangers attendant upon such concentration of capital.

The day of the money kings may be passing. But it can at least be said for Mr. Morgan that he has used his power, far too great for any one man to handle, with a sanity and good sense that few or none could rival.

AFTER THE BUNNY-HUGGERS

The national organization of the Daughters of the American Revolution has taken up a campaign against the bunny-huggers and turkey-trotters, and hopes to see these dances relegated to the more or less tainted dance halls whence they came. It certainly does look a bit queer that the girl who will apologize if her elbow brushes against a man's coat, will take the strangle hold of some of these new freak dances.

No one wants young people to return to the prudishness of a generation ago, when piano legs had to wear pants and one was afraid to look on the sculptural representation of human beauty. But the modern absence of such squeamishness does not prove that all womanly sense of personal reserve is obsolete. Women who adopt the easy manners of the dance halls that fringe on the underworld may feel that their freedom of manner creates a certain sparkle. But it is the effervescent foam on the surface, through which the real substance of beauty is escaping.

The girls who are really the most attractive are not those who rub after the men the most ardently. They are not those who beseege men at their offices with telephone calls, who sit on shady piazzas until nameless hours of the night, and who allow all sorts of familiarity in public and private. There has to be a certain elusiveness about the eternal feminine to reach the higher winsomeness. A certain touch-me-not spirit whets masculine ardor, and stimulates the desire for possession.

And after all, the vogue of these new dances has been much less than one would think to read the newspapers. In nineteen ball rooms of twenty, the women still act like home folks, no matter what high jinks may be doing among the Smart Set.

London ladies who dump muriatic acid into letter boxes are very plainly not expecting any valentines this year.

Illinois devotes too much time to viewing its legislature with alarm.

Too often the charity that begins at home isn't worthy of mention.

Pacific Coast News Letter

WASHINGTON, Feb. 26.—When and if the dreams of certain prominent Democrats come true, Brother Bill Sulzer, governor of New York, may offer congratulations to Brother Charles Sulzer as governor of Alaska. Charles Sulzer, of the Fairbanks division, is a lively candidate for the governorship of the big territory, running against Maj. J. F. A. Strong of Juneau, whose friends at the national capital claim he is the only original Wilson man north of Vancouver Island. Strong was for Wilson at Baltimore, while Sulzer's brother, at the head of the empire state, is himself something of a pillar of strength for the president-elect.

Besides the appointive job as governor, which carries the control of half the patronage of the territory, the Democrats of Alaska are wiring, telegraphing and sending representatives to Washington and Trenton for the four federal judgeships, four jobs as marshal, four as federal attorney, four as court clerk, two as land register and one as territorial secretary and controller of customs.

Z. R. Cheney of Juneau has been recommended by the Democratic central committee of the territory for appointment by the national committee as national committeeman. If chosen, he will advise with the governor on all appointments.

W. H. Whittleson of the Seward district, is here, endorsed by various party leaders for federal district attorney. Judge L. T. Edwin of Fairbanks, candidate for United States marshal, is on the way.

DEMOCRATS NOT OVERLOOKING 300 OR 400 GOOD SALARIES

While the new administration is expected strongly to support the merit system in appointive offices, the fact that three or four hundred good salaries in the federal service will be open in the states of Washington, Oregon and California this year has not been overlooked by any of the Democratic leaders along the coast. A new scheme for dividing up the fruits of victory is invented every day. All plans have the proviso, of course, that Woodrow Wilson shall follow the custom of politics in this matter.

Congressmen Raker, Church and Kettner, the only Democratic Pacific coast men in the house, have agreed to cut California into three parts, the northern of which shall fall to Raker, the central to Church and the southern to Kettner. Having no Democratic senators from California to dispute their title, and the national committee being notably anti Wilson, they feel safe in assuring the country committees that the committees shall name the postmasters, and that they will do the rest.

Federal Judges Wellborn and Ross will follow Judge Morrow into retirement under the age limitation during the coming four years. A collector of the port of San Francisco at \$7,000, one for San Diego at \$2,500 and fees, another at Los Angeles at the same price and one at Eureka at \$2,500 net.

ANHUT DENIES DR.

RUSSELL'S CHARGE

Says He Never Offered Russell \$25,000 for Harry Thaw's Rescue from Matteawan

ALBANY, Feb. 26.—Unqualified denial that he offered Dr. John W. Russell, superintendent of Matteawan asylum \$25,000 to aid in the release of Harry Thaw, was voiced today by Attorney John Anhut of New York before the commission appointed by Governor Sulzer to investigate the Thaw case. He admitted making a personal appeal to Russell but denied making a money offer.

"Dr. Russell told me," Anhut testified, "that he would be glad to throw any business he could my way. Later Thaw retained me as counsel, paying me a fee of \$25,000 returnable unless I secured his release. December 16th I saw Russell. Russell asked me 'Where do I come in?' I asked what he meant. He replied 'Why, I recommended you. You got the job. I wouldn't do anything for Thaw unless I got money for it.'"

Anhut then testified that he told Russell he could not give him anything as he had signed receipts for all the money and that it was all returnable to Thaw unless his release was secured.

CLUB WOMEN WILL WATCH LEGISLATION

General Federation Secretary Writes for Names of State's Solons

SACRAMENTO, Feb. 26.—That the women of the General Federation of Woman's Clubs, which is to meet in Los Angeles commencing March 1, is to keep tab on the legislature, is indicated by the fact that Mrs. Maude Crew Waters, state secretary, has written State Printer Friend W. Richardson to mail her five hundred copies of a pamphlet containing the names and addresses of legislators.

She says the federation represents 100 clubs and that several meetings will be held to discuss proposed legislation.

LOS ANGELES, Feb. 26.—Wearing a trailing bridal veil and orange blossoms Emma Estosto, aged 15, was married today to Henry McNeal, aged 21, by Judge Summerfield. The girl was accompanied by her mother, who gave her consent. Both the bride and groom live in Riverside.

Oregon has a corresponding list of soft berths, candidates for many of which were recently nominated by President Taft at the joint solicitation of Senator Bourne and Ralph Williams, Republican national committeemen. Senators Chamberlain and Lane will consult Will R. King, national committeeman, who is now in the capital, on the awards.

With neither senators nor congressmen of Democratic faith, the state of Washington will see its hundred federal appointments made after consultation between the president-elect and the leaders of his party from that section whom he considers progressive.

KENT DISGRUNTLED OVER NON-REPLY OF FAIR DIRECTORS

William Kent, California Progressive in the house, who made the fight against allowing even federal commissioners to be "wished on" the Panama Pacific Exposition at a cost of about \$400,000 as the price of a federal government exhibit at the fair, is still waiting for an answer to telegrams which he sent to the exposition directors on the day after the debate on the Rodgers bill. He appealed to the directors to give some sign that they would prefer a straight-out appropriation without a commission.

"I got as much attention as a little yellow dog," said Kent, five days later. "They seem to think that it's no use to ask congress to give us an exhibit without our offering some sort of pay for the votes. I told them we would get nothing that way. I want to see San Francisco given a big federal exhibit; that is why I am against this lame duck rider in the bill."

Eight-hour laws for women in all the industries are coming, and they will come the faster because of the players' threat to replace women with men where eight hours for women are established by law. This is the conclusion of Senator Works of California, sustained by Senator Kenyon of Washington, and Senator Kenyon of Iowa, after hearing the District of Columbia merchants' and laundry owners' protests against the eight hour standard for women in the federal district.

Senator Works is particularly zealous in behalf of the improvement of conditions for female wage earners, whom he says are as a rule more reliable and painstaking than men. He bluntly told the Washington business men that the payment of wages in industrial plants at an average of \$5.45 per week was an incentive to immorality.

Senator Jones proposes that the amount of wages paid to each woman employee be posted publicly along with the number of hours she has worked each day, as provided in the LaFollette-Peters bill.

RAINFALL GRAND FOR THE GROWERS

Fruit and Vegetable Producers Rejoice Over Great Storm as Wealth-Bringing

LOS ANGELES, Feb. 26.—Produce men in Los Angeles predict bumper crops as the result of the record rains of the last few days.

G. Harold Powell, manager of the California Fruit Growers' Exchange, declared that the rains will benefit the citrus crops along with other industries. Trees, he said, will be re-established and irrigation aided. Shipments, however, will be slightly retarded.

Thomas O'Neill, manager of the California Vegetable Union, declared that the rains assure satisfactory crops although they will interfere with immediate shipments, general conditions, he said are satisfactory.

Reports received here from the San Joaquin and Sacramento valleys indicate that the precipitation there has had a beneficial effect, and that excellent crops are in prospect.

VENICE FLOODED BY STORM WATERS

2000 People in Submerged Canal District; Pomona Business Halts; Boy Drowned

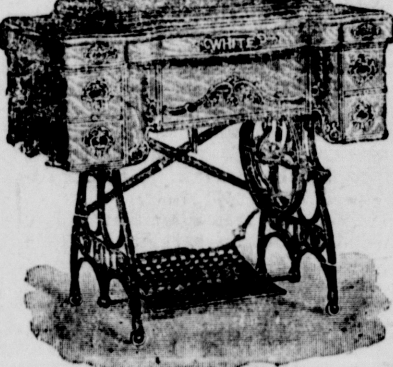

LOS ANGELES, Feb. 26.—The flood waters of the most generous rain storm that ever visited Southern California rushing yesterday towards the ocean spread out over the coast lowlands back of Venice and Playa del Rey, below Dominguez and from the Clearwater southward in varying depths from a few inches to ten feet. Venice canals were transformed into roaring, overflowing torrents that formed a great lake by morning and which was still being fed by water from rivers and drainage canals above. Three cement sluice gates connecting the canal system with the ocean were dynamited, letting 2,000,000 gallons per minute rush through to the ocean. Little effect was seen this forenoon, as the water seemed to be rising.

2000 people are in the Venice canal district and adjacent territory and many of the 500 families had to be removed in gondolas and boats from the flooded zone. Houses, cottages, and tents in the vicinity are flooded, as are schools and churches. The Motorcade is surrounded by water.

FOR SANTA ANA TEACHER

Miss Blanche Shoemaker Guest of Honor at Delightful Functions in Orange

Miss Blanche Shoemaker, who until recently was a teacher in Spurgeon Grammar School of this city, resigning to go to the Philippines, was the honor guest at two parties given within the last few days at Orange, her home city. These were announcement parties, disclosing the "why" of Miss Shoemaker's journey to the Orient. From the Orange Daily News of yesterday is given the story of the pretty affairs for the charming young teacher:

"Miss Blanche Shoemaker, who in the near future will sail to far Manila to wed an Orange man, Capt. Harry G. Upham, was the honor guest at two recent announcement parties, one given Saturday evening and the other this afternoon. Both were events of social interest, on account of their marked brilliancy and the prominence of the young lady who was their central figure.

The affair Saturday evening took place at the Annin home on South Glassell street, where the Misses Carolyn Roberts, Mabel Parker and Lydia Killefer entertained a gathering, principally composed of Miss Shoemaker's fellow teachers.

The dainty green and white invitations characterized it as a "Spring Party," perhaps from the flowery breath of spring time which sprung from the beautiful fresias and ferns which profusely covered the walls, chandeliers and prominent spots in each room. The green and white color scheme was faithfully carried but at every turn, even invading the score cards and favors of every sort. Tiny white doves were used as a prominent decorative feature, poised half hidden in the greenery or fluttering from arch ways.

"The announcement reposed on a silver tray in one corner. White doves with ribbons held divided hearts. On the inner side of each half-heart were written the names of the 'announced' couple.

"The game of the evening was one of the delightful features. Of a progressive nature, it consisted of various imaginative stages of the bride-elect's ocean voyage from America to the Philippines. The first stage, 'preparations,' was followed by 'places.' Then came 'steamer,' next 'Hong Kong,' and then the last, which was 'destination.' Each stage was formed of various scenes which its name suggested.

"The evening's pleasure was crowned with a delicious three-course luncheon, featured by more decorative art. In the center of the table was a marvelous fern-bordered lake on the calm surface of which reposed a majestic white-winged ship. As favors at each plate were small white boat loads of mints and the place cards were paper steamers.

This afternoon Miss Parker again entertained for the P. E. O., both she and Miss Shoemaker being members of this society. In detail this affair was much like that of Saturday evening, and a delightful afternoon was spent at the Parker home on East Palmyra.

"Decorations consisted of ferns, fresias, daffodils and the marguerite, the P. E. O. flower. The announcements were in the form of 'messages from Cupid.'

"The guests indulged in progressive games for which a picture of two lovers, a beautiful hand-colored thing,

WHAT TO DO IF THE HIRED GIRL FLIRTS

In the "Home Problem" department of the February Woman's Home Companion appears the following letter from a subscriber:

"I have a housemaid who is very pretty, and whose work suits me, but who is much too fond of the other sex. She flirts with the ashman, talks needlessly and at length to express messengers and tradesmen who come for orders, and is, I fear, disposed to pick up undesirable acquaintances when she goes out. She is a puzzle to me, and I don't know whether to let her go or try to improve her behavior."

The editor of the department, Mrs. Virginia Henry, makes the following reply:

"The maid in your service, who is young and perhaps lonely, is only exercising a natural instinct in chatting sociably with the men who come to the kitchen door. She has not many visitors, and is thrown back on herself for company. If she is a new importation from a peasant neighborhood across the sea she does not know that she ought to guard herself carefully from familiar speech with strangers on the road. Put yourself in her place, or in the place of her mother, try to provide diversion for her, and, remembering that she is the same age as your own daughter, give her if you can, a higher notion of her womanly value."

was given as a prize. The score cards were hand-painted daisies. "Hand paintings of bridesmaids were the place cards at the dainty three-course luncheon which concluded the affair. Covers were laid for twenty-four."

COMING PICNICS

Iowa, Michigan and Adams County, Nebraska, to Make Merry in March

The annual state Iowa picnic, postponed from Feb. 22, will take place in Eastlake Park on Saturday, March 1, and as the Iowa Association usually turns out 25,000 people or thereabouts, at her annual reunions in California, there will doubtless be an immense gathering this year. The Iowans have also secured Eastlake Park for March 8.

The securing of two early March dates by Iowa has caused the choice of March 15 as the date for the annual Michigan picnic, which was originally planned for March 1. The Wolverines will meet in Eastlake Park on Saturday, March 15, and all former residents of the state and visitors in Southern California are cordially invited to attend.

The Adams County, Nebraska, annual picnic and reunion will be held March 1 at Long Beach.

PLAYER AT MISSION

San Juan Capistrano Visited by Lucretia Del Valle of The Mission Play

One of the most lovely and pathetic of California's ruined missions, that of San Juan Capistrano, is located in Orange County. It figures largely in the "Mission Play," now achieving a world-wide reputation, and has just had a visit from one of the principal players in the famous drama of early California days. Of the visit and the visitor the Los Angeles Tribune said this morning:

"Miss Lucretia Del Valle, who plays the role of Senora Josefa Yorba in the last act of the Mission Play at San Gabriel, is perhaps the most keenly interested person in the story of the John McGroarty drama, outside of the author himself.

"A few days ago Miss Del Valle decided she would like to re-visit San Juan Capistrano mission, whose ruins are depicted in the last act of the play in which she has been appearing all season.

"The young actress, in company with Mrs. Del Valle and George L. Lawson, visited the mission and saw the actual ruins instead of the realistic reproductions given on the Mission Play stage.

"The party was the guest of Judge Richard Egan at his home near San Juan mission. Judge Egan has the first chair made by Indians in California which was used by Father Junipero Serra at San Diego.

"Miss Del Valle took a keen interest in this and other interesting mementoes of the mission days and returned to San Gabriel with more 'atmosphere' for her act."

Dinner and Whist

An informal dinner party and evening of whist were given by Mr. and Mrs. C. S. Kendall at their home last night. Jacquards were used in carrying out the color scheme of white and yellow in which the table and rooms were adorned. Whist prizes were won by Mr. and Mrs. Caroen, who had high score, and Mr. and Mrs. J. J. Roper, with consolation score.

Covers were laid at dinner for the host and hostess and the following guests: Mr. and Mrs. L. J. Carden, Mr. and Mrs. Elmer Burns, Mr. and Mrs. J. J. Roper, Mr. and Mrs. E. B. Smith, Mr. and Mrs. L. Toyle.

Delightful Surprise

Mrs. Fern Bishop's friends invaded her home at 179 East Santa Clara avenue, Tuesday evening to extend birthday congratulations.

W. H. THOMAS LECTURES AT BUSINESS COLLEGE

Yesterday was the date set for the third in a series of lectures President J. W. McCormack had arranged for the students in the law course in Orange County Business College, and at the hour of 3 p. m. W. H. Thomas delivered an address on the subject of Courts in America, their jurisdiction, and pleadings and practice. For an hour Mr. Thomas held the rapt attention of every member of the class and at the close of his address many questions were asked by the students relative to the operation of the judiciary, the same being answered by Mr. Thomas in a way to elucidate even to the youngest student's mind the tangles of this complex subject.

These lectures by active practicing attorneys greatly enthrall the students in their study and have become a very popular part of the curriculum of the local institution.

COMMISSIONERS WILL INSPECT HIGHWAYS

The county highway commissioners plan to visit Bay City tomorrow for the purpose of viewing the conditions there in connection with the plans for the extension of the Pacific Electric railway lines, and the construction of the state highway. The commissioners find that their plans and the plans of the P. E. and Bay City Improvement Company do not exactly harmonize, and they are anxious to see what arrangements can be made that will prove satisfactory all around.

SANTA ANA MEN ON HIGH SCHOOL BOND

ORANGE, Feb. 26.—The contract for the erection of the new polytechnic high school was let last night to George Keuchel, of this city, his bid being \$36,944. There were fourteen bidders. Keuchel agrees to have the two buildings ready for use by July 1 next. His bondsmen are James McFadden and A. C. Bowers, both of Santa Ana. The bids for heating were also opened but no action taken. Award will probably be made at the meeting next week.

He Would Be as True as Lincoln Said Tiny Newsie

'An honest man's the noblest work of God.'

Was it the reflection of such a sentiment inculcated in the boy's heart by the story of the life of the martyred president and Emancipator that prompted an action just told of Harry Smakel, a little newsboy of Santa Ana? The end of the story indicates it.

Harry, a small lad who sells newspapers here every day and who has one patron who is so regular in buying of him that he terms her "my customer," met his patron last evening and proffered her an evening sheet. She smilingly gave him two pieces of money, evidently thinking they were pennies. The lad put the coins in his pocket, but later taking them out found they were \$5 gold pieces.

With all haste the small "newsie" found his lady and restored the supposed pennies. Naturally, she was delighted with his honesty.

The sequel of the story is this: When Harry told his mother of the circumstance in the evening, he said simply: "Mother, I want to be as true as Abraham Lincoln."

MRS. COBLER PASSES TO ETERNAL REST

Mrs. Lavina Cobler died last night at the residence of her son-in-law, C. H. Meacham at 1902 North Main street from the effects of injuries received about two weeks ago when she fell in the yard at her own residence at 806 South Broadway, and broke her right hip. An unusual incident in relation to her passing away is the fact that Mr. Meacham's mother died last August from similar injuries.

About a year ago Mr. Meacham was called to Florida upon receipt of the information that his mother had met with an accident. She had fallen and had broken her hip. He brought his mother to Santa Ana but despite every care she died last August.

Early this month Mrs. Cobler, whose daughter is married to Mr. Meacham, met with the accident that last night resulted in her death. She had been a resident of Santa Ana about thirty years.

STOMACH SOUR? GOT INDIGESTION ALSO?

"Pape's Diapepsin" Makes Upset Stomachs Feel Fine in Five Minutes

If what you just ate is souring on your stomach or lies like a lump of lead, refusing to digest, or you belch gas and eructate sour, undigested food, or have a feeling of dizziness, heartburn, fullness, nausea, bad taste in mouth and stomach headache—this is indigestion.

A full case of Pape's Diapepsin costs only fifty cents and will thoroughly cure your out-of-order stomach, and leave sufficient about the house in case some one else in the family may suffer from stomach trouble or indigestion.

Ask your pharmacist to show you the formula plainly printed on these fifty-cent cases, then you will understand why dyspeptic trouble of all kinds must go, and why they usually relieve sour, out-of-order stomachs or indigestion in five minutes. Diapepsin is harmless and tastes like candy, though each dose contains power sufficient to digest and prepare for assimilation into the blood all the food you eat; besides, it makes you go to the table with a healthy appetite; but, what will please you most, is that you will feel that your stomach and intestines are clean and fresh, and you will not need to resort to laxatives or liver pills for biliousness or constipation.

This city will have many Diapepsin cranks, as some people will call them, but you will be cranky about this splendid stomach preparation, too, if you ever try a little for indigestion or gastritis or any other stomach misery.

Get some now, this minute, and forever rid yourself of stomach trouble and indigestion.—Advertisement.

MOVING PICTURES IN SANTA ANA SCHOOLS

Board of Education Has Novel
Proposition for Early Use
Under Consideration

TEACHERS SAID TO
FAVOR INNOVATION

Educational Institutions Finding
the Movies of Considerable
Help to Students

Moving pictures may be placed in the Santa Ana city schools for the entertainment and instruction of the students. The proposition to do so was presented to the board of education last night by the representative of a moving picture concern, which has placed such apparatus in a number of educational institutions throughout the country, and largely in public schools.

The proposed innovation is understood to meet with the favor of the Santa Ana teachers and superintendent of the local schools; and the indications were that the members of the school board last night were likewise favorably impressed. An exhibition of the kind of pictures shown under this arrangement with schools, proved both interesting and enlightening.

Previously there had been exhibitions given in some of the schools, and the belief is quite general among the educators that they could be made of great help to the students, especially along historical lines where the pictures would depict some important event. The students would receive a clear understanding of the event sketched and with the written account of the same, it is insisted, they would gain a thorough comprehension of the

NOBODY CAN TELL IF YOU DARKEN GRAY, FADED HAIR WITH SAGE TEA

Druggist Says When Mixed
With Sulphur Prevents Dandruff and Falling Hair

Common garden sage brewed into a heavy tea with sulphur and alcohol added, then left to age and carefully filtered will turn gray, streaked and faded hair beautifully dark and luxuriant; remove every bit of dandruff, stop scalp itching, and falling hair.

Just a few applications will prove a revelation if your hair is fading, gray or dry, scraggly and thin. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready-to-use tonic, costing about 50 cents a large bottle at drug stores, known as "Wyeth's Sage and Sulphur Hair

Remedy," thus avoiding a lot of fuss. Some druggists make their own, but it isn't nearly so nice as "Wyeth's."

While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur no one can tell, because it does it so naturally; so evenly. You just dampen a sponge or soft brush and draw it through your hair, taking one small strand at a time. Do this tonight and by morning all gray hairs have disappeared, after another application or two it will be restored to its natural color and be even more glossy, soft and luxuriant than ever.

Local druggists say they are selling lots of "Wyeth's Sage and Sulphur," it surely helps folks appear years younger. Rowley Drug Co.—Advertisement.

subject before them.

The school board took no action last night, but decided to hold decision in abeyance for the time being, and incidentally make a little investigation as to the general effect of the use of such novelty, and the results that have been obtained in the schools that have used the pictures.

There was little else but routine business considered at the meeting, a number of bills being approved. On next Friday the board will open bids for the subcontract work on the new polytechnic high school. This will include heating, ventilating, plumbing, electrical apparatus and other work.

FRECKLES Coming

FRECKLES SATURDAY

One of the most important offerings of the current season at the Grand Opera House Saturday, March 1, is the first presentation here of Neil Twomey's delightful dramatization of Gene Stratton-Porter's charming story, "Freckles," which is announced for this date.

The fact that there have been more readers of this story than any other book published in a decade—a fair estimate is in the millions—makes the dramatization of the utmost importance to the dramatic world.

"Freckles" as a drama is stronger than "Freckles" as a story. The characters live, love and have adventure—one can see and hear, there is nothing left to the imagination. D. L. Martin, under whose management the present tour is conducted, has made the production of "Freckles" exceedingly

show will be produced upon the screen of the Grand Opera House, Thursday and Friday evenings only, Feb. 27 and 28. Ah! it was a scene to be remembered! That Pendleton Cowboy Carnival! In all the years that have passed since the days of the Romans when the drivers' life was the price perhaps of failure, there never was a greater interest or better horsemanship shown than at Pendleton, Ore., a quiet little burg tucked over among the foothills near the Idaho state line, numbering somewhere around 6000 inhabitants. This live town entertained 60,000 people inside a period of but three days—visitors to see the championship games and dare-devil exploits of Western American horsemen, peers of the world, despite the cry: "American horsemanship is passing, like the buffalo, to oblivion."

As though there ever was a time when Young America could not "come back," came the call or the need for prowess!

Twelve thousand feet of film, 192,000 separate camera pictures were taken with six motion picture experts busier than bees, and with every contestant on the field rendering himself or herself immortal by keeping in smiling range, certainly insures to that greater public, which leans upon the pen and the artist for its conception of the world's events, a splendid idea of the calibre of this splendid hippodrome event.

To render the pictures particularly interesting all of the living and vivid matter of the whole film taken has been condensed into four reels of continuous action, and such action as may mean a human life at every jump of the snorting, frantic mountain horses which had never known halter or halter until that 12th day of September, 1912, when for the first time in their wild, free lives, the intrepid young braves, in the presence of assembled thousands and just for the rioting lust of conquest threw a saddle across these unwilling machines of bone and sinew and fared for a time with life and death and glory!

Many prominent men of affairs from Seattle and Portland declare: "Never was such a show before." The Portland papers devoted whole pages to the subject. Thousands let business "hang" and hid to the last Great Rodeo at Pendleton.

elaborate and has assembled a company of unusual excellence for the presentation of this charming story play.

The music for the play and the songs rendered by Freckles are by the Viennese composer, Anatol Friedland, and are a novelty from a musical point of view. The Woodland Fantasy played during the play is a masterpiece.

Terrible Fire Last Night
Mr. Editor: Kindly tell your hundreds of readers that "The Terrible Fire" is only one of the great number of thrilling scenes to be found in the special two reel subject of motion pictures of "The Vengeance of Durand" and will be exhibited tonight, for the last time at my theater, "The Temple." Tell them that all of Santa Ana's papers were represented in the large audience last night, also a goodly number of the city and county officials and their families were present and that one and all, with the many other representative people

of our city, declared that "The Vengeance of Durand" is the greatest and most interesting picture play that they have ever seen in Santa Ana, and the two comedy subject reels could not be better, while the Martinez Duo, a big musical number, was the best ever brought to our city. Tonight is your last chance to see this.

Yours respectfully,
L. R. A. M. ROBERTS.

The bill at the Temple Theater for the fore part of this week is an exceptionally good one and is attracting large and appreciative audiences. The Martinez musical duo are artists of musical ability and are giving excellent music on a variety of instruments.

The pictures also are unusually good. The French drama, "The Vengeance of Durand," runs through two complete reels, the fire scene and duel scene in this picture drama are very realistic.

A comedy, "Fooling Their Wives," is the concluding reel of pictures, which never fails to produce mirth from start to finish. Tonight is the last night for this show at the Temple.

DATE GROWING IN CALIFORNIA

(From a Man Who Knows.)

A new industry has been started in California which is destined to produce millions of dollars annually. The United States government has been experimenting in date culture in the Coachella Valley for a good many years and the results obtained have been more than satisfying. Scores of ranchers living in the vicinity of the government experimental date gardens located at Indio and Mecca, Riverside county, California, have awakened to the wonderful opportunity which exists and are setting out thousands of date seed and trees.

The profits to be made in growing dates are exceedingly large. Date palms are planted fifty to the acre, and a palm in full bearing yields from 150 to 300 pounds annually, depending upon the variety. A most conservative value of the choice fruit ranges from fifteen to fifty cents per pound wholesale. Taking 200 pounds per palm as the average yield, an acre will produce 10,000 pounds of fruit annually, worth at the lowest estimate of \$1500 per acre.

The palm begins to bear in the fifth year and are considered to be in full bearing when twelve to fifteen years of age. Some palms in Africa are known to be over 1000 years old and are still bearing annually.

The climatic conditions and soil of Coachella Valley are peculiarly adapted to the date culture, and in a few years' time there will undoubtedly be millions of dollars produced annually from dates.

SHRINERS INSTALL OFFICERS TO-NIGHT

Members of Al Malaikah Temple Have Important Event to Take Care Of

The installation of the officers of Al Malaikah Temple, Nobles of the Mystic Shrine, will take place in Shrine Auditorium, Los Angeles, tonight, followed by a dance. The officers to be installed are as follows: Potentate, Leo V. Youngworth, succeeding J. H. Flint, who was re-elected several times; Chief Rabbi, Robert Wankowski; Assistant Rabbi, F. B. Silverwood; High Priest and Prophet, W. R. Hervey; Oriental Guide, Paul Peipers; Treasurer, W. C. Durgin; Recorder, D. E. Barclay. There will be drills by the Arab Legion of Honor, commanded by A. J. Copp, Jr.; the Old Bedouin Patrol, commanded by R. H. Heffner, and the Arab Patrol, commanded by W. H. Harrison.

The chairman of the several committees are Harry G. Holabird, reception; R. A. Heffner, floor; W. D. Leche, music; Perry W. Weidner, installation.

Elaborate preparations are under way for the Shrine Circus, which will be held in Shrine Auditorium from March 10 to 15. This will be a brilliant affair and will probably surpass all former efforts of the Shriners in this direction. The new officers are taking firm hold and will actively direct the preparations for the great event.

NEWPORT BEACH TO GET GLASS FACTORY

Employment Will Be Given to Two Hundred Men When Plant Is Working

NEWPORT BEACH, Feb. 25.—A contract has been signed up between the Townsend-Vandewater Co., owner of the Newport mesa land and the Brangan Glass Co. whereby the glass company agrees to erect and have in operation within 18 months on the ten-acre site adjoining the Santa Ana river and alongside the county road, a glass factory costing not less than \$15,000.

The terms of the contract are such that if the Brangan Glass Co. fulfills its obligations it can secure a deed to the ten acres of land on the payment of an additional \$1,000 as a certified check for this amount has already been posted as a forfeit that the plant will actually be built and operated. If the Brangan Glass Co. does not fulfill its part of the contract the \$1,000 becomes the property of the Townsend-Vandewater Co. The contract is signed by Stephen Townsend for the Townsend-Vandewater Co. and by John B. Brangan for the Brangan Glass Co.

The principal stockholders in the glass plant are Mr. Brangan and Dr. P. L. Sherman of East Newport. Mr. Brangan is a glass maker of many years' experience and was formerly connected with the MacBeth Co. of Pittsburgh.

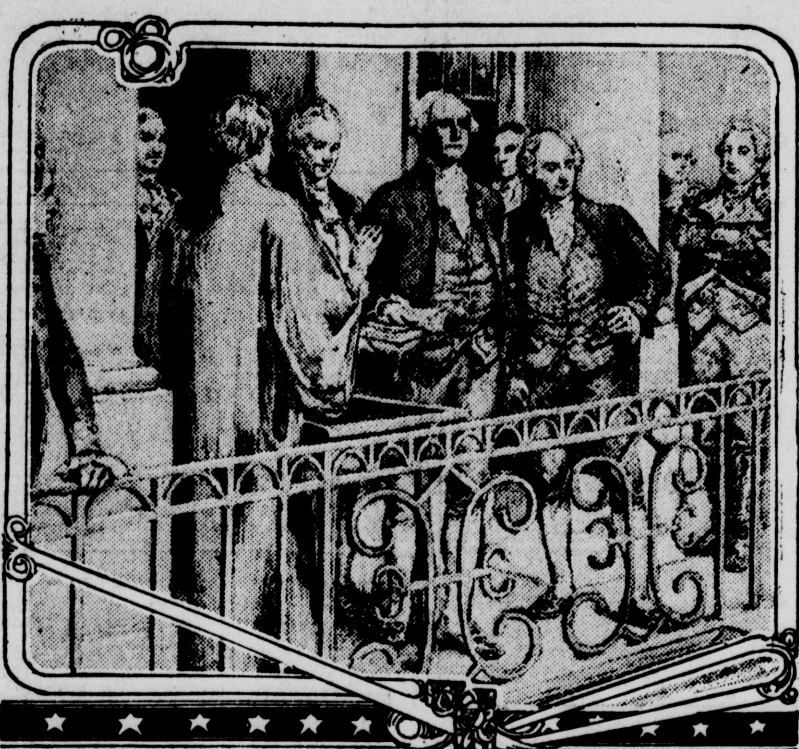

The factory will give employment to over 200 people, most of whom will command high salaries. Houses will be erected in the vicinity of the factory for the accommodation of the workmen. It is probable that a store will be put in, also a restaurant, as local business men have been approached by agents of the factory and inducements offered to engage in business near the plant.

The deal for the plant has been pending for about two years. The company was offered better inducements in the way of a site by several other beach towns but preferred to come here on account of the probability that before many years Newport bay would be a harbor of commerce and the glass company is seeking to establish a trade with the Orient and wants close communication with water transportation.

GIRLS USE PICKET ON BOLD HUGGER

San Rafael Young Woman Holds "Jack's" Arms and Her Sister Beats Him

SAN RAFAEL, Feb. 25.—"Jack the hugger" was paid in his own coin recently by two athletic girls upon whom he made an attack. Kathryn Carter, 25 years old, and Gwendolyn Carter, 23, sisters, did not scream as a man stepped from an alley as they were passing, and attempted to throw his arms around the younger girl.

Miss Gwendolyn grasped the stranger by the arms and held him while Kathryn tore a picket from a fence and played a tattoo on his head with telling effect. He begged for mercy and was released.

"A big grain crop is certainly assured in Orange County as the result of the rains," said Secretary Metzgar of the Chamber of Commerce this morning. He based his opinion upon reports he has received from many sections.

"Not only are we sure of a splendid hay crop, but all other crops have been vastly benefited by the precipitation that has fallen the last four or five days," says Mr. Metzgar. "I do not figure that we are, at this time, sure of a bumper hay crop, but we are certainly safe for a big crop. For an extra big crop we will need another rain along about three or four weeks hence."

WIRELESS ACROSS BERING SEA TO LINK CONTINENTS

WASHINGTON, D. C., Feb. 26.—A regular wireless service across Bering sea, insuring telegraphic communication between North America and Asia at all times, will be an established fact in the very near future, if arrangements now being considered by the United States and Russian governments are perfected. The project, it is claimed, taken in connection with the trans-Atlantic radio service, will complete the circuit of the globe by this means of communication.

The Russian government already has a wireless tower at Anadir, Kamchatka, and the construction of a new station, therefore, will be unnecessary.

Will Democrats Lend Themselves To the "Get Johnson" Movement?

SAN FRANCISCO, Feb. 26.—Old-time partisanship, such as goes to any length in gross misrepresentations against an opposing party, still dominates the Democrats of California. The annual conference of the State League of Iroquois Clubs in this city last Saturday adopted a set of resolutions that almost equalled, in misstatements and false allegations, the lying emanations from the poison press of the state.

Good Democrats and other Democrats are plainly being led into the "get Johnson" movement that certain large corporate interests are aiming to bring about so that all hostile forces may be combined in a desperate effort, planned for two years hence, to destroy Governor Johnson and the Progressive movement.

A phase somewhat surprising in this enlightened day is that Democrats usually broadminded and actuated by decent sentiments have become blinded by the spirit of narrow partisanship. They cling to the methods of bygone political days, and many of them seem to have undergone a complete change of character and purpose since the federal jobs have come into the prospect.

The Democratic conference proceeded in resolutions to condemn Governor Johnson's administration, first, for extravagance.

The charge of extravagance against the administration is absolutely without foundation. Under Governor Johnson the business of the state has been conducted with a marked degree of economy. The facts and figures prove this. The percentage of increase of general appropriations of the 1911 legislature was the lowest in twenty years. The special appropriations were, in fact, less in amount under the Progressive administration than at the session of 1909.

The following table is highly illuminative of how earnestly the Progressive legislature applied the pruning knife:

Increase	Per cent
1903 over 1901	18.42
1905 over 1903	32.53
1907 over 1905	13.90
1909 over 1907	18.12
1911 over 1909 (Progressive)	8.28

During the two years for which the 1911 appropriations were made under the Johnson administration the percentage of increase in the public institutions has been infinitely greater than during any other biennial period. For instance, the increase in the number of insane in the hospitals was over 15 per cent; the increase in the number of pupils in the normal schools was over 30 per cent; and with these increases so great in percentage, the state has been maintained and its various departments operated with an increase of but 8.28 per cent in appropriations.

These economies were accomplished in spite of the new policies which have been of such benefit to the state and which necessitated an additional outlay, such as appropriations for the Railroad Commission, for the Industrial Accident Board,

RIVERS-HARBORS BILL IS PASSED

Will Go From Senate to House For Conference Over Amendments

WASHINGTON, Feb. 26.—The annual rivers and harbors appropriation bill has been passed by the Senate, after a prolonged fight. It now goes to conference with the House, over Senate amendments. Amendments added to the bill by the Senate brought predictions that the measure would be vetoed by the president, because they were in direct opposition to his expressed policies. One of these amendments was the Connecticut river dam bill which had been passed by the Senate a week ago.

The bill as reported to the Senate from committee carried an appropriation of \$48,991,745, an increase of \$7,218,787 over the amount authorized by the House. Several amendments adopted by the Senate increased this sum materially.

The bill of Senator Newlands of Nevada, providing for the creation of a river regulation board to take over all river improvement work, also was adopted as an amendment.

VENTURA BRIDGE IS HIGHWAY LINK

City Will Dedicate Bridge and Courthouse With Big Celebration

VENTURA, Feb. 26.—The new courthouse being constructed by Ventura county in this city, one of the finest county buildings in Southern California, will be completed and ready for occupancy May 1.

The Ventura river bridge, an important link in the Rincon sea-level road and to become a link in the coast route of the state highway, will be completed at about the same time.

Will Democrats Lend Themselves To the "Get Johnson" Movement?

the Conservation Commission, etc. These appropriations have been justified many times over. The Railroad commission, in one year, in its decisions, saved the people of the state more than three millions of dollars in fares and freights. The Board of Control, in one year, saved the people of the state more than one million dollars, and put the business of the state on a business basis. The charge of extravagance from any standpoint is willfully false.

The Democrats "resolved" against, to use their own words, "bad management of state institutions."

No other characterization can be made of this than that it, too, is willfully false. There isn't a state institution in California that isn't better and more efficiently managed, and its business conducted on a more sound basis than at the beginning of the Johnson administration. There isn't a single institution in the state of California the management of which has not improved in the last two years.

"Control of the Legislature by Political Patronage" constituted another item in the reckless onslaught by the assembled Iroquois braves.

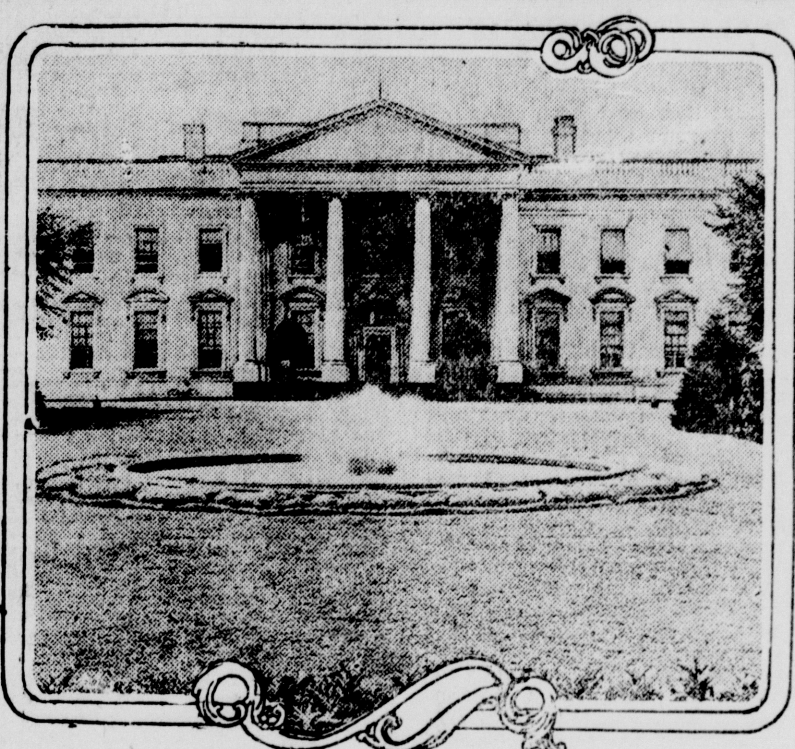

Admittedly, when the administration came into power it had certain definite policies, which, in the inaugural address of the Governor before any patronage could possibly be used, were definitely defined. To these policies, Republicans and Democrats who were not responsive to the special interests, readily subscribed. Opposing these policies were both Democrats and Republicans who represented the special interests, like Senator Wolfe, on the Republican side, and Senator Curtin on the Democratic side. The definite policies were carried out by the Republican majority aided by the Democratic minority, but opposed always by the special interest representatives, like Wolfe, Republican, and Curtin, Democratic. The policies controlled the legislature, and not the patronage.

The fourth indictment advanced by the inconsistent Democratic Indians read as follows:

"Unfair manipulation of the state tax amendment so that small corporations have been forced to pay a heavy tax, which was intended by the people to be paid by public service corporations enjoying special privileges."

A preliminary question may be asked: Who gave the state the tax system that presents the injustice complained of? THE ANSWER IS, SENATOR JOHN B. CURTIN, THE LEADER OF THE DEMOCRATIC PARTY IN THE LEGISLATURE, AND THE ACKNOWLEDGED MOUTHPIECE OF THE DEMOCRATIC PARTY IN THE STATE OF CALIFORNIA.

It was Senator Curtin who upheld the constitutional amendment in the present legislature in antagonism to the Johnson administration and in sympathy with the Southern Pacific company. The man who was a leader in the fight for the passage of the constitutional amendment was the acknowledged leader of the Demo-

The White House

Both are magnificent structures, well built, ornamental, useful and the pride of Ventura county people.

At a meeting of the chamber of commerce it has been decided to make the opening and dedication of these structures the occasion of a big joint celebration. An effort will be made to have Governor Johnson here at the dedication. Members of the state highway commission will be special guests. Members of the Automobile Club of Southern California will be asked to take part in the bridge opening. Celebration details are in the hands of the chamber of commerce.

eratic party in the state of California, Senator John Curtin.

When and how was it first called to the attention of the people what was the real effect of the new tax system imposed on the state by the Southern Pacific company, aided by the acknowledged leader of the Democratic party in the state of California, Senator John Curtin?

The answer is in the message of the governor of the state to the legislature, wherein the Governor sets forth the following statement regarding the system:

"The facts at this time appear to be:

"1. That the new tax system will not provide, for the years 1913 and 1914, the revenue essential for the maintenance of the state government."

"2. That small corporations are paying a greater proportion of the taxes than they should and larger corporations are paying a smaller proportion of the taxes than they should."

"3. That the small householder proportionately is paying a greater amount of taxes than the great public service corporations."

In this message the Governor asked an increase in the rates levied on public service corporations. In a second message, the real proportions of taxes were stated of the various corporations, as compared with the small taxpayer, and the demand was made that an increase be made in the rates of the large corporations.

The committees of the two houses of the legislature heard the testimony. The legislature of the state increased the rates of the public service corporations over their protest.

This was done by unanimous vote in the Senate, Republicans and Democrats agreeing on the increase. The only cavilling voice heard in the Senate respecting the increase in rates of taxation for public service corporations was the voice of the acknowledged leader of the Democratic party in the state of California, Senator John Curtin.

In other words, the Governor in his message in January made emphatic complaint against conditions concerning which the Democratic braves are now making their belated cry. Meantime, the legislature has acted on Johnson's suggestion to cure these very wrongs. Evidently, there is a desperate endeavor to find or manufacture ammunition against the Governor.

It is an astonishing and regrettable thing that petty politics, the desire to elect some one to office, should lead men like some of those who are members of the Iroquois Club to indulge in such rash, unjust and untrue statements as the foregoing. Partisanship has gone mad when men so far forget fairness, and so far forget themselves, as to sit in silence and permit the adoption of resolutions they know to be false.

It had been hoped that the day of this sort of partisanship was passed in California. If this sort of partisanship is again to be confessed, the Progressives will gladly meet it, for absolute lies are easily nailed.

DISSOLUTION PLANS ARE NOT AFFECTED

So Says Wickersham in Regard to Decision of California R. R. Commission

ST. LOUIS, Feb. 26.—The government's plan for the dissolution of the Southern Pacific Union Pacific merger will not be affected by the order of the California railroad commission denying the application of the Union Pacific for a 999 year lease on the Peninsula cutoff between Oakland and Sacramento, according to Attorney General Wickersham, who said: "The California decision is a local matter and the government plan for dissolution will not be changed."

Kruttchnitt Displeased
 NEW YORK, Feb. 26.—If the decision of the California railroad commission last night disapproving of the Harriman dissolution plan is upheld by the courts, the plan will go by the boards. This statement was made yesterday by Julius Kruttchnitt, chairman of the Southern Pacific board of directors. "Negotiations must now begin over again and that means we must evolve an entire new plan."

DUNHAM'S DEATH DUE TO ACCIDENT

LOS ANGELES, Feb. 26.—Frank H. Dunham, No. 1528 East Fifty-sixth street, at one time a well-known real estate operator and club man, who died several nights ago in the receiving hospital, after having his skull fractured, met his death by an "accidental fall," according to a coroner's jury, which held an inquest yesterday afternoon.

Dunham fell twice the day he died, while descending a flight of stairs in Central Station and again in the stockade at the East Side jail. Both times Dunham was stricken with alcoholic convulsions. The second fall rendered him unconscious and he was removed to the hospital.

Dunham will be buried at Rose-dale Cemetery tomorrow. Funeral services at the Council mortuary will be under the auspices of the Francis Murphy Association. Thomas C. Murphy, president, will preside.

Dunham leaves a widow and two small daughters.

PORTLAND BEAVERS AFTER PENNANT TO TRAIN AT VISALIA

PORTLAND, Feb. 26.—Manager Walter McCredie and his Portland Beavers, with whom he hopes to finish in the first division of the Pacific Coast Baseball League pennant hunt, were expected to leave Wednesday night for Visalia, Cal., to go into spring training. The first game will be played Saturday with the Visalia club. At Sacramento McCredie will have a talk with Harry Krause, former Philadelphia American pitcher, whom he is trying to sign. It is predicted here today that Krause, who formerly was a star at St. Mary's College, California, will join the Beavers before the season opens.

ROOSEVELT VIEWS ON N. Y. ELECTION

Approves Non-Partisan Ticket In Effort to Compass Tammany's Defeat

NEW YORK, Feb. 26.—Colonel Roosevelt, leader of the Progressive party, came out yesterday in advocacy of a non-partisan ticket in the next municipal campaign in opposition to Tammany hall.

Colonel Roosevelt's attitude is expressed in a letter, made public yesterday afternoon, to John J. O'Connell, president of the Hudson Progressive Club, in answer to one requesting the views of the colonel on the question of a proposition of a union of forces to defeat Tammany. The letter reads: "I am in cordial agreement with your purpose. I am utterly against any proposal to make a deal with any party or organization to divide the spoils of office. I do not believe the bulk of Progressive voters would sanction any such idea."

"But I do emphatically believe that they will approve of a non-partisan ticket, composed of thoroughly efficient, upright and independent men, chosen without regard to political affiliation and standing on a platform which embodies those Progressive principles that are of local application."

500 COLLEGE MEN FOR WAR VESSELS

Navy Department Plans to Put Students in Training in Summer Vacations

WASHINGTON, Feb. 25.—Hearty approval of the plan to place college men on board the war vessels of the United States in the summer vacations was contained in letters received by the navy department from President Lowell of Harvard and President Hadley of Yale. While the department has not approved formally the scheme, it has been endorsed by Capt. Charles C. Marsh in charge of naval militia affairs.

Captain Marsh believes that the placing of college students on board the vessels would be invaluable and also would bring to the service many men who would be invaluable in case of war. He plans, with the consent of the secretary of the navy, to try the experiment with at least 500 collegians this coming summer.

HERE'S A CHANCE TO GET GOOD FEDERAL POSITIONS WITH YOUR UNCLE SAMUEL

The Register is in receipt of a letter from Congressman Baker, who represents the First Congressional district of California, calling attention to civil service examinations that are to be held next month in several sections of the state, and as readers of the Register may be interested therein, his letter is herewith published for their information:

The United States Civil Service Commission announces an open competitive examination for general clerk (for men and women) in California and Nevada on March 18, at the following places: Carson City and Reno, Nev.; Eureka, Fresno, Red Bluff, Marysville, Sacramento, San Francisco, San Jose, San Luis Obispo, San Bernardino, and San Diego.

Competitors will be examined in the following subjects, which have the relative weights indicated:

1. Spelling (twenty words of more than average difficulty); weight, 10.
2. Arithmetic (fundamental rules, fractions, percentage, interest, discount, analysis, and statement of simple accounts); weight, 25.
3. Penmanship (the legibility, rapidity, neatness, general appearance, etc., of the competitor's handwriting in the subject of report writing); weight, 15.
4. Report writing (test in writing in letter form a report not more than 200 words in length, summarizing and arranging in logical order a series of facts included in a given statement of 400 or 500 words); weight, 25.
5. Copying and correcting manuscript (test in making a smooth, correct copy of a draft of manuscript which includes erasures, misspelled words, errors in syntax, etc.); weight, 15.
6. Geography and civil government of the United States; weight, 10. Total, 100.

Competitors who fail to attain a rating of at least 70 in arithmetic or 65 in report writing will not be eligible for appointment, and the remaining subjects of their examination will not be considered.

Under an act of Congress applicants for this examination are required to be examined in the state or territory in which they reside, and to show that they have been actually domiciled in such state or territory for at least one year previous to the date of the examination.

Age, 18 years or over on the date of the examination; salaries, at the beginning, \$840 and \$900 per annum. This examination is open to all persons who are citizens of or owe allegiance to the United States and who meet the requirements.

Persons who meet the requirements and desire this examination should at once apply to the United States Civil Service Commission, Washington, D. C., or to the secretary of the board of examiners at any place mentioned above for application Form 304. No application will be accepted unless properly executed and filed with the commission at Washington. In applying for this examination the exact title as given, to-wit: "General Clerk Departmental Service, Washington, D. C., No. 198," should be used.

As examination papers are shipped direct from the commission to the places of examination, it is necessary that applications be received in ample time to arrange for the examination desired at the place indicated by the applicant. The commission will arrange to examine any applicant whose application is received in time to permit the shipment of the necessary papers.

As California is behind in her quota, those successful in the examination are almost sure to get a position.

East therefrom to the place of beginning, saying, excepting and excluding from said district for assessments all public streets, avenues, lanes, alleys, courts and places therein included and contained. The lands of the Santa Ana School District and Santa Ana High School District shall be omitted from assessment, and the cost of the work in front of them shall be paid by the owners of the remaining lots and land in said sewer district.

All of the herein proposed work shall be done in pursuance of an Act of the Legislature of the State of California, entitled "An Act to Provide for Work upon Streets, Lanes, Alleys, Courts, Places and Sidewalks and for the Construction of Sewers within Municipalities Incorporated March 18, 1855, and the several Acts amendatory thereof, or supplementary thereto; also in accordance with the plans and specifications made therefor, by the City Engineer of the City of Santa Ana and adopted by said Board of Trustees prior to the date of this Resolution.

Said streets referred to are public streets of said City of Santa Ana, Cal.

Resolutions Nos. 549, 551 and 552, in relation to the work described in this Resolution are hereby repealed.

The Superintendent of Streets is hereby directed to post and publish "Notices of Street Work" as required by law.

"The Santa Ana Daily Evening Register" is hereby designated as the daily newspaper published and generally circulated in said City, in which this Resolution of Intention and the Superintendent of Streets' Notice of the passage thereof shall be published.

The City Clerk is hereby directed to publish this Resolution by two successive insertions in said newspaper and to post the same for two days conspicuously on or near the Chamber door of the Board of Trustees.

The above Resolution was passed and adopted this 24th day of February, 1913, by the following vote, to-wit:

10 GREAT POINTS To Consider

Before you make an investment in a piece of "Old Mother Earth" in California.

1. Location.
2. Soil.
3. Water Supply.
4. Climatic Conditions.
5. Products.
6. Market.
7. Profits.
8. Cost.
9. Terms.
10. Methods.

If you carefully investigate the above ten points and find them safe, sure and satisfactory, you cannot go astray in making an investment.

Now these are the very points we want you to investigate about the Yucaipa Valley. If you will make a one day trip with us, we will show you the whole proposition and let you decide for yourself. We want you to ask us any hard question you can think of to bring out the truth. The more you know about the Yucaipa Valley, the more you will like it. If you want to invest in a safe proposition and take advantage of a great opportunity, go with us on one of these little trips only 64 miles away, right here near home, and get valuable information. It is well worth while to see this big development, the new community of homes, ranches, irrigation, the young trees, churches, schools, stores, what everything spells opportunity. What a chance for home-seekers, for young men not afraid to work, for practical ranchers.

We are now organizing Santa Ana Orchards Company No. 2. This is for those persons who want to invest but are not ready to move to Yucaipa till later or who want to grow an orchard to sell later for a big price. The planting and care by an expert at a saving of one-third the cost by this simple co-operative method. Come at once and be one of the number. Three trips a week. Phone us and we will do the rest. 970 W. 504 North Main street, Santa Ana.

LOS ANGELES PRODUCE MARKET

Rainy weather was not only responsible for a light volume of business at the produce market yesterday, but also caused eggs to advance about 1 cent. But dealers are not deriving such a large margin as formerly because of the low prices; eggs sell wholesale at only about 2 to 3 cents above the buying price. Receipts yesterday were light. Petaluma eggs are at the same level as local ranch.

Receipts of vegetables were rather light. Cauliflower was scarce. The supply of northern cabbage continues good. Lettuce firm. Potatoes and onions remained practically the same. Dried beans are steady and rather featureless. A good shipment of Mexican vegetables is expected today. They move very quickly and were rather scarce yesterday.

Bananas and apples still remain the leading attractions on the fruit market. Late Howe cranberries are nearly out, but the Bell and Bugle variety still remains selling around \$13.00 a barrel. About twenty barrels of malaga grapes packed in work have been received; they bring \$7.50 a barrel, a high rate, however. A small quantity of the storage grapes still remain.

Eggs only were traded in at the Produce Exchange; the volume of business was fair. Reported receipts were: Eggs, 355 cases; butter, 31, 322 pounds; cheese, 305 pounds; potatoes, 10 sacks; onions, 301 sacks; sweet potatoes, 25 sacks; apples, 1280 boxes.

NOTICE TO CONTRACTORS
Notice is hereby given, that sealed proposals or bids will be received by the undersigned at No. 714 North Main street, in the City of Santa Ana, County of Orange, State of California, up to 7 o'clock P. Inauguration of Woodrow Wilson

Wilson photo copyright by American Press Association.

WOODROW WILSON.

THOMAS R. MARSHALL.

By JAMES A. EDGERTON.

CHIEF JUSTICE WHITE

dollars, and the hot polio who catch colds.

Nevertheless it is a great day. The bands play "Hail to the Chief," the militia of the various states proudly pound the pavements; the governors and their staffs come forth to dazzle the eye; the political clubs keep time to a secret refrain in the heart of each member that sounds suspiciously like "want a job, want a job;" the city is brave with flags and bunting; the president elect struggles to his feet and struggles to keep his feet as he bows to the plaudits of the multitude while his carriage passes by. He delivers an inaugural address that is already in type in nearly all the newspaper of fices in the country, he reviews miles of parade and shakes thousands of hands, the cannons boom the salute, and all goes merry as a marriage bell. This is especially true of the coin that tinkles into the tills of the various hotels, stores, thirst parlors and the like. For real merriment that sound has the average marriage bell sounding like a dirge.

Speaking of the Weather.

Our inaugural ceremonies may be likened to the tree of liberty bursting into flower. Some flowery—what! The only trouble is that the blossom is usually covered by the snow which our optimistic and promising weather department hands out each inauguration day. Professor Willis L. Moore promises assorted sunshine and balmy skies and calls on all the universe and the signal service to witness his good intentions. This prophecy having been duly made, telegraphed to the ends of the land and published in the papers, the weather proceeds to perform, incidentally making an assorted variety of monkeys out of the said Willis L. Moore. On the morning of inauguration day it snows. This is followed by hail, sleet, rain, wind, slush, microbes, influenza, grip, coryza, cold feet, blue lips, red noses, profanity, ineptitude, doctors' bills, crape, undertakers and a frenzied agitation to change the inauguration date which comes to nothing.

It is said by some of Washington's oldest inhabitants that there have been nice inauguration days. There is even one myth to the effect that there was a mild and sunshiny 4th of March. Possibly that was at one of the inaugurations of Grover Cleveland. You

can't prove it by me. So far as my knowledge and belief go, inauguration day weather in Washington usually is bad.

There have been various measures introduced in congress to change inauguration day to the end of April. They have ranged all the way from simple bills and resolutions to constitutional amendments. Whatever their form, they have all traveled through the valley of the shadow of the pigeonhole. Everybody admits that the change should be made, but that does not help the efforts to change it. People who participate in inaugural parades or look on die and are buried in consequence, but the deadly date goes on. President Elect Wilson proposed that he be sworn in on March 4, but that the public celebration be left till later. Everybody said it was a bad proposal and then proceeded deliberately to prepare for the public ceremony on March 4. Can you beat it?

Custom is mighty and shall prevail. President Elect Wilson also suggested that he wanted a simple inaugural, without so much fuss and feathers and so many troops. Thereupon the committees in Washington got together, adopted a solemn resolution approving the idea of a simple inaugural, made various speeches telling why simplicity should prevail and then proceeded to follow precedent and to arrange the same kind of inaugural that had been held from time immemorial.

The head of the committee in charge of the inauguration is William Corcoran Eastis of the District of Columbia and state of Virginia. Eldridge E. Jordan, a Washington bank president, is vice chairman, and Major General Leonard Wood, now the head of the army, is grand marshal. There are various subcommittees containing the names of nearly every man socially prominent in Washington. If those committees alone were to parade they would require quite some time to pass a given point. There would be the honorable committee on the comfort of visitors, the honorable committee on legislation, the honorable committee on decorations, the honorable committee on this and the honorable committee on that. All of which teaches us that the inauguration of a president of the United States is a sizable function. A quarter of a million visitors are expected in the capital city that week. Nor will they all be looking for office. It is expected that at least the hands and the militia will have no hankings to enter the public service.

The Faithful Will Be There.

It will be a day of glory for the Democrats. Not for twenty years have they had an opportunity to participate in a like festival of joy. During four successive campaigns they have fought, bled and died for their country, only to have the victorious Republicans play the star parts in the inauguration parades. Will our Democratic friends permit this proud opportunity to slip now that it has come their way? Not a slip. As the Kentucky colonel remarked to the Georgia judge: "It is a long time between Democratic inaugurations. Let us don our glad habiliments and go thereto."

All the faithful will be there, either in body or spirit. Not only so, but the good will of the whole people, regardless of party, will attend the event. No matter who elected him, the chief

figure in the affair is to be president of all of us. He is our foremost representative and mouthpiece during four years. We may not agree with all his views, but we are for him nevertheless. He may want the tariff scrambled, while we like it hard boiled, but these things shall not mar our good feeling. If we do not approve his brand of government we will have a chance to whack it in four years. In the meantime let us inaugurate him in the good old way—with bare of bands and much shouting.

There will be no inaugural ball, much to the disgust of various people who wanted to dance the turkey trot, the bunny hug and other ragtime riles and wiggles; also to the dealers in white dress gloves and those who expected to sell tickets, but much to the satisfaction of the pension office. Uncle Sam and the people generally.

The proposed reception at the capitol building was also called off, since it would have entailed expense and would have kept the new president slaking hands most of the night. In place of these affairs there will be various private functions, one at the New Willard promising to be the most elaborate. If people want to dance they will have the opportunity, provided they can get an invitation.

Plenty of Red Fire.

If they do not desire to dance they can repair to the ellipse south of the White House and watch the fireworks. These will break all records. They will open by firing the national salute of 101 guns. Pictures of Wilson and Marshall and an immense American flag will be wrought in fire. There will be thousands of colored lights, batteries, candles and bombs, 100 aeroplanes and balloons and hundreds of geysers, mines, flashes, turbidions and acroillies. Red fire will be burned all along Pennsylvania avenue.

The inauguration itself will follow the due and ancient form. At about 10 o'clock the president elect will visit the White House, where he will be introduced to the committee of senators by the president. In another half hour the party will enter carriages and be driven to the capitol, Mr. Taft occupying the right hand seat in the front vehicle and Mr. Wilson sitting at his left. The president will repair to the room reserved for him in the capitol to sign bills, while the president elect goes to the vice president's room. In the senate chamber the sergeant-at-arms will push back the hands of the clock once or twice. Then the presidential party will enter; also the supreme court, diplomatic corps and other high dignitaries. The vice president will be sworn in, deliver a brief address and give the oath to the new senators. The procession will move to the temporary stand on the east portico, Chief Justice White will swear in the new president, the guns will boom the presidential salute, and the inaugural address will be delivered to as many of the throng as can hear. Then the procession will return to the White House, President Wilson now upon the right hand and ex-President Taft on the left. The long parade will be reviewed from the White House stand, the multitudes will be received, and a new administration will have begun.

All this being attended to in due and ancient form, there is but one question remaining: How would you like to be Woodrow Wilson?

That's simply because *Cottolene* is richer than either lard or butter. It makes better food, too—food free from grease and indigestion—food that is light and crisp and flaky—food that digests easily and does you good. *Cottolene* contains no hog fat. It is a vegetable product—made from choicest cotton oil.

Cottolene

Nature made it, and Nature knows what is good for human stomachs. Don't cry any more about the high cost of living until you have practised the economy which the use of *Cottolene* will enable.

Discard lard altogether, discard butter except for your table, and use *Cottolene* for all shortening and frying. The results, as well as the economy, will make you thankful for having read this advertisement.

Try This Recipe

GINGER DROPS
Cream one-half cup of *Cottolene* with one-half cup of sugar and add one cup of molasses. Beat into this two and one-half cups of flour sifted with a teaspoon each of salt and cinnamon, also a tablespoon of ginger. Add two well beaten eggs and three fourths of a cup of boiling water, in which two teaspoons of soda have been dissolved. Bake in muffin pans in very moderate oven. These are particularly tender and delicate and may be served as individual puddings with sweetened cream.

\$60,000,000 Date Growing Industry

A telegram from Washington, D. C., January 18, 1913, states: "A date growing industry worth sixty million dollars (\$60,000,000), it is said, will be established in the southwestern part of the United States as a result of the experimental work by the Agricultural Department, according to the statement by the House Committee on expenditures in the Agricultural Department by B. T. Galloway, chief of the Bureau of Plant Industry. Dr. Galloway states that dates will be a valuable addition to our crop output." (See issue of Los Angeles Times and Los Angeles Tribune, Sunday, Jan. 19th.)

Date groves pay big returns at a valuation of \$10,000 per acre. We produce them for \$500 per acre. Get your pencil busy, write for booklet and map of Southern California.
